Local Business Relief Coalition: Introduction of EHR Sharing Legislation - A.7981 McDonald

The following statement can be attributed to the Local Business Relief Coalition

“The Local Business Relief Coalition commends Assemblymember John McDonald for introducing Assembly Bill A.7981, which modernizes Electronic Health Records (EHR) sharing in New York. This legislation will streamline the exchange of health information between hospitals and health plans, reducing administrative burdens, cutting costs, and improving care for patients, providers, and payers.”

“Evidence from hospitals, currently sharing EHRs in New York, and other states shows that EHR sharing can significantly lower denial rates, speed up care delivery, and reduce prior authorization costs, helping to make healthcare more affordable and sustainable for local businesses.”
